Email: tejdeepak2005@gmail.com

Mobile: +91- 8309464414

SKILLS

Languages: C, C++, Java, JavaScript
Frontend: HTML, CSS, Tailwind CSS, React.js, Material UI, Bootstrap
Backend: Node.js, Express.js, JWT, REST APIs
Databases: MongoDB, MySQL, PostgreSQL
Tools/Platforms: Git, GitHub, Visual Studio Code, Postman, Multer, Axios
Soft Skills: Problem-Solving, Team Management, Adaptability

PROJECTS

Citizen Road Feedback Management System (MERN Stack) | [GitHub](#) | [Link](#)

Jan' 2026

- Built and deployed a **full-stack civic issue management system** enabling citizens to report road problems with real-time status tracking and notifications.
- Implemented **role-based dashboards (Citizen, Admin, Staff)** with secure authentication using **JWT, cookies, and session handling**.
- Designed an **end-to-end workflow** where admin assign reports to staff, track progress, and approve or reject completed tasks with before-and-after images.
- Integrated **Razorpay (test mode)** to support **donations and funding workflows**, allowing NGOs to raise funds for infrastructure improvement.
- Enabled **real-time notifications and transactional emails (SendGrid)** and deployed the **backend on Render and frontend on Vercel**, securing APIs with **Rate Limiting, CORS, and production environment configuration**.

Tech: React.js, Node.js, Express.js, MongoDB, JWT, Socket.IO, SendGrid, Razorpay, Render, Vercel

Job Application Tracker (MERN Stack) | [GitHub](#) | [Link](#)

Jul' 2025

- Engineered a **full-stack MERN application** with **100% mobile-responsive UI** using **Material UI**, enabling users to perform comprehensive **CRUD operations** on job applications.
- Implemented a secure **JWT-based authentication system** and protected **RESTful API** routes to ensure authorized access.
- Developed a **file upload/download** feature using **Multer** middleware, streamlining resume management and improving user workflow efficiency.
- Designed an interactive **Timeline View** component that visually tracks application progress, increasing user engagement and data clarity by **50%**.

Tech: React.js, Node.js, Express.js, MongoDB, JWT, Material UI, Multer

TRAINING

Cipher Schools | MERN Stack Development | [Link](#)

Jul' 2025

- Completed an intensive, project-based training program, achieving a **95%+ proficiency score** in building end-to-end web applications.
- Mastered **component-based architecture** in **React.js** and developed **scalable backend services** using **Node.js** and **Express.js**.
- Engineered and managed **MongoDB** databases, implementing **RESTful APIs** with **JWT authentication** that improved data security.
- Successfully deployed **multiple full-stack modules**, including **CRUD applications** and **user authentication systems**, reducing development time by **25%**.

CERTIFICATES

Cloud Computing | [NPTEL](#)

Oct' 2025

Build Generative AI Apps | [Infosys](#)

Aug' 2025

Version Control Git and GitHub | [Cipher Schools](#)

Jul' 2025

Data Structures and Algorithms (DSA) | [CSE Pathshala](#)

Mar' 2024

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.11**

Punjab, India
Aug' 2023 - Present

Narayana Junior College

Intermediate; **Percentage: 96%**

Andhra Pradesh, India
Jun' 2021 – Apr' 2023

Narayana Olympiad

Matriculation; **Percentage: 99%**
